Napatech Wins Two Prestigious Best of Show Grand Prix Awards at Interop Tokyo 2015

World Leader in Accelerating Network Management and Security Applications Sweeps Management and Monitoring Category

COPENHAGEN, June 16, 2015 – Napatech (OSE: NAPA) today announced that the Napatech Pandion® and 200G Performance Solution have won the Grand Prix Best of Show and semi-Grand Prix awards in the management and monitoring category at Interop Tokyo 2015.

- **Grand Prix winner Napatech Pandion delivers faster time-to-market** – Pandion is Napatech's fast, reliable, out-of-the-box engine for real-time capture to disk. It is a powerful, efficient software-ready platform, preconfigured for immediate value-add for developers and resellers. It is purpose-built to provide optimized, high-speed packet capture combined with an open-query API that saves valuable R&D time and money while minimizing risk. http://solutions.napatech.com/

- **Guaranteed delivery of data with zero packet loss** – The company's 200G Performance Solution provides guaranteed delivery of data for analysis on two 100G ports. It is ideal for appliance deployments using network taps where upstream and downstream data are provided in two separate streams and thus requires two ports for analysis. http://www.napatech.com/products/200g-performance-solution

- **The Best of Interop Awards** – Recognizing exhibitors that have made significant technological advancements in their specific category, the Best of Interop winners in each category represent the products that event judges believe to have the biggest technological and business impact in their segment.

Dan Joe Barry, VP positioning and chief evangelist, Napatech said:
"Our mission is to help our customers stay one step ahead of the data growth curve by accelerating their applications and time-to-market while reducing risk. Winning these awards validates our efforts to deliver solutions that address the high-speed challenges facing networks today, and we couldn't be more thrilled that two of our latest acceleration products have been recognized at this year's Interop Tokyo."

About Napatech

Napatech (OSE: NAPA) is the world leader in accelerating network management and security applications. As data volume and complexity grow, the performance of these applications needs to stay ahead of the speed of networks in order to do their jobs. We make this possible, for even the most demanding financial, telecom, corporate and government networks. Now and in the future, we enable our customers' applications to run faster than the networks they need to manage and protect.
