

Napatech Honored with Network Products Guide Hot Companies and Best Products Award

4 port 10G Accelerator Chosen as Gold Winner for Best IT Hardware Product

COPENHAGEN, June 25, 2014 – [Napatech](#) (OSE: NAPA), the world's leading supplier of accelerators for network management and security applications, today announced that [Network Products Guide](#), a leading industry technology research and advisory guide, has selected Napatech's [4 port 10 Gbps accelerator](#) as a gold winner of the Hot Companies and Best Products Awards in the Best IT Hardware category.

HIGHLIGHTS:

- **The explosive growth in data traffic is increasing**, forcing network equipment manufacturers to come up with solutions that help their customers deliver high quality video and voice services, a task which requires real-time analytics.
- **Napatech is nominated for its 4 port 10 Gbps network accelerator** that provides full 40 Gbps analysis with guaranteed data delivery to applications.
- **Napatech Software Suite provides hardware abstraction that allows up to eight network accelerators in an appliance to appear as one**, enabling up to 320 Gbps of throughput per appliance.
- **Real-time data from multiple points in the network can be collected and merged into a single analysis stream**, allowing for easier correlation of analysis data.
- **Napatech products enable appliance vendors to use commercial off-the-shelf servers**, thereby focusing resources on application development rather than on expensive proprietary hardware.

SUPPORTING QUOTE:

Dan Joe Barry, vice president of marketing, said:

“Napatech is committed to meeting the demands of its customers and streamlining their work through the use of our innovative solutions. Our high speed accelerator ensures that network equipment manufacturers are equipped with the tools they need to ease the workload with higher throughput via multi-port appliance solutions, while reducing time to market and risk. Napatech is honored to be selected as a gold winner of the Network Products Guide Awards.”

About Napatech

Napatech is the world leader in accelerating network management and security applications. As data volume and complexity grow, the performance of these applications needs to stay ahead of the speed of networks in order to do their jobs. We make this possible, for even the most demanding financial, telecom, corporate and government networks. Now and in the future, we enable our customers' applications to run faster than the networks they need to manage and protect.

No Forward-Looking Statements

This press release may be deemed to contain forward-looking statements. Readers are cautioned that these forward-looking statements are only predictions and may differ materially from actual future events or results due to a variety of factors, including, among other things, business and economic conditions and growth trends in the networking industry, our customer markets and various geographic regions; global economic conditions and uncertainties in the geopolitical environment other macro-economic factors and other risk factors set forth in Napatech's reports. Any forward-looking statements in this release are based on limited information currently available to Napatech, which is subject to change, and Napatech will not necessarily update the information.
