Computerworld Names Napatech Top Networking Company in Denmark

COPENHAGEN, Denmark, September 18, 2013 – Napatech, the world's leading supplier of network analysis adapters, today announced that the leading IT trade magazine in Denmark, Computerworld, has named it the number one networking company as part of its annual Top 100. This recognition is another tribute to Napatech's consistent focus on producing innovative products that address the latest trends in the telecommunications and financial industries.

"We are thrilled to be recognized by Computerworld as Denmark's top networking company," said Henrik Brill Jensen, CEO, Napatech. "This prize is a reflection of the enormous growth we've had in our international customer base, as well as our commitment to keeping product development here in Denmark."

In its assessment, Computerworld references Napatech's focus on the mobile segment of the telecommunications industry and its strong growth in Asian and South American markets. Computerworld also praises Napatech's attention to creating products for network test and measurement, such as for customers in the financial industry, where every nanosecond counts in the processing of trading data.

"We will continue to develop cutting-edge products that address the challenges brought on by explosive growth in mobile data traffic, cloud computing, mobility and big data analysis. Napatech will be an important player in solving the challenges of the networking and telecommunications industries in the years to come," added Erik Norup, president and CMO, Napatech.

Napatech adapters allow network equipment manufacturers to develop appliances and probes that provide real-time insight into Ethernet traffic performance. Designed for use in standard servers, Napatech products enable appliance vendors to focus development on the application, rather than on expensive proprietary hardware. Napatech delivers a flexible and easily deployable solution that allows its customers to provide innovative services to their end users.

About Napatech
Napatech is the leading supplier of real-time analysis adapters with over 140,000 Ethernet ports deployed worldwide. Designed for use with Commercial Off-The-Shelf (COTS) servers, Napatech adapters enable rapid development of powerful appliances for high performance analysis. Napatech adapters guarantee real-time delivery of data at speeds up to 40 Gbps. Intelligent features allow network data analysis to be off-loaded, thereby accelerating application analysis for managing, securing and optimizing networks and services. When performance matters, the world's largest equipment vendors in telecom, enterprise, financial and government markets choose Napatech. Customers depend on Napatech for reliable delivery, complimentary maintenance and upgrades, and experienced global customer support. Napatech is headquartered in Copenhagen (Denmark) with offices in Mountain View, Andover, Washington D.C. (USA), Tokyo (Japan), Seoul (South Korea) and São Paulo (Brazil).
