

NAPATECH WINS RED HERRING AWARD

Berlin, April 16th, 2009 – Red Herring has selected Napatech as a winner of the Red Herring 100 Europe, an award given to the top 100 private technology companies based in the EMEA (Europe, Middle East and Africa) region each year.

"We are extremely honored to receive this prestigious award and the recognition of the Red Herring editorial team. The Red Herring Top 100 award is both a source of pride in what we have achieved, but also a motivation to maintain focus on providing highly intelligent real-time network analysis solutions to our OEM customers" said Henrik Brill Jensen, CEO Napatech.

"During a difficult year, Red Herring still received an impressive list of submissions from companies across the EMEA region, clearly demonstrating Europe's role as a major center of innovation in the global technology sector," said Red Herring Managing Director, Farley Duvall. "The exceptional accomplishments of European technology startups and entrepreneurs are a testament to the rapid advancements being made in building the European innovation ecosystem."

Red Herring's lists of top private companies are an important part of the publication's tradition of identifying new and innovative technology companies and entrepreneurs. Companies like Google, eBay, and Skype were spotted in their early days by Red Herring editors, and touted as leaders that would change the way we live and work.

Red Herring's editorial staff rigorously evaluated several hundred private companies through a careful analysis of financial data and subjective criteria, including quality of management, execution of strategy, and dedication to research and development.

Red Herring has honored the Red Herring 100 Europe Finalist companies at its Red Herring Europe 2009 Conference, which was held March 31- April 2, at the Berlin Radisson Hotel. This intimate, 2 1/2 day event will explore how European firms are leading the charge in many technology sectors, gaining a competitive advantage, and driving entrepreneurial success in ways that create business opportunities for challengers and incumbents alike.

About Red Herring

Red Herring is a global media company which unites the world's best high technology innovators, venture investors and business decision makers in a variety of forums: a leading innovation magazine, an online daily technology news service, technology newsletters and major events for technology leaders around the globe. Red Herring provides an insider's access to the global innovation economy, featuring unparalleled insights on the emerging technologies driving the economy.
