

Napatech Wins Product of the Year Award

ANDOVER, Massachusetts, August 28, 2012 – Napatech, the world’s largest vendor of intelligent adapters for network analysis, today announced that the Napatech [NT40E2-4](#) has won the Communication Solutions Product of the Year Award.

The NT40E2-4 intelligent network adapter is a 4 port 10 GbE network monitoring and analysis adapter designed for full line-rate packet capture on all 4 ports with zero packet loss. The NT40E2-4 provides a comprehensive feature set for offload of data pre-processing and intelligent distribution to up to 32 CPU cores that effectively accelerates the performance of the application. The NT40E2-4 thus allows OEM vendors to build high port density packet capture appliances with one of the most comprehensive feature sets available supporting a wide range of applications.

“It is a great honor to receive this award”, stated Henrik Brill Jensen, CEO Napatech. “It is a welcome recognition of the value of intelligent adapters for network monitoring and analysis and Napatech leadership in providing the solutions that OEM vendors need to provide more effective and efficient appliances.”

“Napatech was chosen to receive a 2011 Product of the Year Award for creating outstanding advancements in communications,” said [Rich Tehrani](#), CEO, TMC. “The NT40E2-4 has proven benefits for its customers and provides ROI for the companies that use it. Congratulations to the entire team at Napatech. I look forward to more innovative solutions from them in the coming year.”

The Communications Solutions Product of the Year Award recognizes the vision, leadership, and thoroughness that are characteristics of the prestigious award. The most innovative products and services brought to the market from March 2011 through March 2012 were chosen as winners of the Communications Solutions Product of the Year Award.

The 2011 Communications Solutions Product of the Year Award winners are published on the [INTERNET TELEPHONY](#) and [Customer Interaction Solutions](#) Websites.

About Napatech

Napatech is the leading OEM supplier of 40 GbE, 10 GbE and 1 GbE intelligent adapters for real-time network analysis with over 100,000 Ethernet ports deployed. Napatech network adapters provide real-time packet capture and transmission with full line-rate throughput and zero packet loss no matter the packet size. Intelligent features enable off-load of data traffic processing and packet analysis normally performed in the CPU. This results in more processing power for the network monitoring, analysis, management, test, measurement, security or optimization application being supported. Napatech has sales, marketing and R&D offices in Mountain View (CA), Andover (MA), Washington D.C., Tokyo (Japan), Seoul (South Korea), Sao Paulo (Brazil) and Copenhagen (Denmark).
