Napatech 100G Accelerator Wins Gold in Three Innovations Categories of the 2014 Golden Bridge Awards

Recognition Program Honors the Best Companies Worldwide

COPENHAGEN, Sept. 10, 2014 - Napatech (OSE: NAPA) announced it has taken gold in several categories at the sixth Annual 2014 Golden Bridge Business and Innovation Awards. The company's 100 Gbps accelerator, the NT100E3-1-PTP, has won in the categories of Network Visibility Innovations, Performance Optimization Innovations and Test, Measurement and Monitoring Innovations. The company was also named a Grand Pillar Trophy Winner.

- **Next-generation solutions needed:** Producers of network management and security applications will need to address numerous analysis challenges in order to stay ahead of the data growth curve as they enter the 100 Gbps era. In order to stay faster than the future, network equipment manufacturers will need to provide next-generation solutions that scale and understand data.
- **Accelerating application performance:** Napatech is recognized for its 100 Gbps accelerator, which enables flexible, scalable network applications at speeds up to 100 Gbps.
- **Extremely reliable:** The world's largest equipment vendors in telecom, enterprise, financial and government markets rely on Napatech for reliable delivery, complimentary maintenance and upgrades as well as experienced global customer service.
- **Industry and peer recognition:** Winners were recognized at the Golden Bridge Awards Dinner in San Francisco on September 8, 2014. The highly sought-after awards are an annual industry and peers recognition program honoring the best companies of all types and sizes worldwide.

Dan Joe Barry, vice president of marketing, Napatech, said:
"Financial, telecom, corporate and government networks are experiencing exponential growth in data volume, variety and velocity. Our products are designed to help network equipment manufacturers reliably increase performance while reducing risk and time-to-market. It's an honor to have our 100G accelerator recognized. It validates our mission and communicates to the industry that we are committed to helping our customers stay ahead of the ever-increasing data growth curve."

About Napatech

Napatech is the world leader in accelerating network management and security applications. As data volume and complexity grow, the performance of these applications needs to stay ahead of the speed of networks in order to do their jobs. We make this possible, for even the most demanding financial, telecom, corporate and government networks. Now and in the future, we enable our customers' applications to run faster than the networks they need to manage and protect.
